### Australia Is Paralyzed

"No one except those who were there can realize what this European conflict has done and what it means for the future of Australia," said Mr. Brasch. "Although rich agriculturally, Australia has practically no manufac-tories and is dependent entirely upon the markets of Europe for the disposal of her products. Statistics furnished ship in question was the Amphion. by the government show that forty per was at the head of a flotilla of cent of the imports of the country come edo destroyers, which in fact is from Germany. Now, with her exports a large type of torpedoboat, and and imports cut off, with more than the age called in German 'Hochsee thirty of her hundred merchant marine arpedoboote, ships of about 800 to impressed into service as transports, 200 tons.

Australia is facing a condition today that it is hard to tell what the outwe from its torpedo scout the entire come will be. In addition to this the billa, under the leadership of the country is threatened with a severe drought, the length of which no one can foretell. South Australia, New South Wales, West Australia and Queensland need rain badly. Victoria is the only state that is not suffering, and even there the rainfall this year is not as heavy as that recorded for many years,

### Wool Industry at Standstill

"Australia produces seventy per cent of the world's output of wool, Five per cent of this finds a market in London. Ninety five per cent is sold each year in the markets of Germany,
